PLEASE READ BELOW BEFORE SUBMITTING THIS FORM

According to federal laws and regulations, a family's 2024 income is used to assess financial need for the 2026–2027 school year. If a family's 2025 income or projected 2026 income is significantly lower due to special circumstances, a financial aid administrator may be able to use the 2025 income or projected 2026 income to assess financial need.

If the 2026–2027 aid is based on estimated 2026 income, the student may be selected for verification in 2027–2028 to confirm the actual 2026 income. If the actual income is significantly more than the estimate, we will not process another request for the student in 2027–2028.

Submission of this form in no way guarantees an adjustment to your financial aid and does not prevent the accrual of late fees on any unpaid student account balances.

This request automatically requires Verification of the information reported on the FAFSA. In order to assess your situation and satisfy verification requirements, you must submit all items listed below along with this completed form. **Failure to submit all required documentation will result in the appeal not being reviewed, so you should wait until you have the most accurate and complete information before submitting the appeal.**
